

SKID & MINI SKID STEER V-BLADE

Standard Features:

- **Dirt and Snow Management** – Position the blade multiple ways to move heavy snow or light material for a variety of applications
- **Variable Blade Positions** – For the ‘V-cut,’ position both blades backward; for ‘scooped,’ position both forward; for a straight cut or angle, just move the individual blades accordingly up to **30 degrees to the right or left**
- **Electro-Hydraulic Controls** – Electric controls on skid steer models make it easy to position the blade with a different angle or tilt
- **Double Hydraulic Cylinders** – Quick connect couplers allow for easy attaching to any skid steer
- **Easy Transitions** – Use this blade for dirt work or snow management with a quick change of the **trip springs and lock out pin**
- **3R Cutting Edge** – Save time and money with our 3R Cutting Edge, which is removable, reversible and replaceable
- **Adjustable Depth Guides** – Manually adjust the spacers on the skid shoes to modify blade height, allowing control over blade height and surface contact
- **Rolled Steel Blade** – We take the time to roll our thick steel for the best material movement, and we offer one **solid steel blade** which minimizes breakdowns
- **Universal Mount** – Allows for one standard attachment for skid steers and for mini skid steers, no need for special hook-ups or attachments
- **Rugged Built and Out Performing** – We manufacture with **American steel** and inspect against high quality standards; just one of the reasons our employees are so proud of this Midwest-made product
- **Continual Improvement** – At HitchDoc, we take our products out year after year and push them to the breaking point; whether moving logs, earth, snow, rock, or mulch—we try it all to maintain our quality levels

Patented Variable Blade Challenges The Limits

SKID & MINI SKID STEER V-BLADE

Optional Features:

- **8 inch Blade Extension** – Attaches to the top of the blade and made from steel to increase capacity
- **Rubber Cutting Edge** – This 1 inch thick, 6 inch wide option minimizes wear on the plowing surface
- **Float Kit** – Available on skid steers over 50 HP, this option operates independently from the machine to self-adjust the blade-surface contact

SPECIFICATIONS

Model Options	Machine Type	HP Required	Height	Width Options
Standard V-Blade & Universal Mount	Skid Steer	Below 50 HP	28.25 in.	5', 6', 7', 8', 9'
Professional Heavy Duty V-Blade & Universal Mount	Skid Steer	50+ HP	28.25 in.	6', 7', 8', 9'
Mini Skid V-Blade & Universal Mount	Mini Skid Steer	NA	22 in.	4', 5'
Bobcat Mini Track Mount V-Blade	Mini Skid Steer	NA	22 in.	4', 5'

SIMILAR PRODUCTS

Sandpiper Spreader

Scoop sand, salt, seed or fertilizer with the hardened cutting edge of the hydraulically-powered Sandpiper Spreader. Spread widths from 30 inches up to 30 feet.

Patent Pending Push-Off Bucket

Achieve faster eject cycle times with this patent-pending product, all while minimizing wear and tear on equipment by no longer 'shaking' sticky materials.

Skid Steer Snowblower

Full hydraulic controls make snow blowing a breeze! Easily attaches to skid loaders, and made from high strength steel so it's built to last.
